

Midterm HSICON 2025

Seeking new Horizons

April 25th-26th, 2025

Organized by

**Department of Surgery
JN Medical College, AMU, Aligarh**

**under the aegis of
Hernia Society of India**

WELCOME MESSAGE

From the Desk of the Organizing Chairperson

Dear colleagues,

Greetings from AMU to all,

Hernia is a common healthcare problem, and techniques for different types of hernia repair have been evolving since times immemorial. Bendix Ebbell's study of the Ebers medical papyrus dating back to 3,000–2,500 BC suggested that the ancient Egyptians had attained a high level of surgical skill, and had developed procedures for hernia and aneurysm management.

The surgical options of different types of hernia repair have undergone a sea change over the last 2 decades, and more so over the last few years. The Department of Surgery, at Jawaharlal Nehru Medical College, AMU, Aligarh is, , therefore, organizing a 2 days mid-term conference from April 25- 26, 2025, under the aegis of Hernia Society of India.

Distinguished faculty having expertise in hernia repair will deliberate on the various treatment options including the latest advancements in hernia repair. Eminent national faculty will also be operating on types of hernia during the workshop using both conventional as well as latest techniques of repair.

We are very hopeful that the riveting, brain storming sessions and operative workshop during the midterm HSICON shall not only provide a platform for exchange of ideas, but also promote camaraderie amongst the participants, which shall greatly benefit all the stake holders involved in the treatment of hernias, especially, the young budding surgeons as well as post graduate students of surgery.

With warm regards and good wishes,

Dr. Atia Zaka-ur-Rab,

Prof. & chairperson,

Department of Surgery,

JN Medical College,

AMU, Aligarh

Organising Committee

Chief Patron
Prof. Naima Khatoon
Vice Chancellor AMU

Organising Chairman
